

Call out to videographers. Students or undergraduates. The Gallery Upstairs Upton Country Park Poole are planning a YouTube video and require some assistance.

The Brief :

YouTube video of the organisation of an art exhibition 'Upton Country Park Meets Modernism' at The Gallery Upstairs, Upton Country Park, Poole, during Dorset Art Weeks May 23rd...24th and 27th, 2018.

To film the process of organising the hanging of an exhibition from the start to the finish.

This would entail being at the gallery on the taking-in day for around two hours, possibly more. Then at the gallery to film the hanging and then the private view. Again possibly two hours or less. All of this over three days.

We envisage a journey to the gallery from the park being filmed possibly speeded up in part, then at the gallery to witness the hubbub of taking in pictures, then to film the hanging, culminating in the private view.

Parts of the filming speeded up to slow or stop on different parts of the journey. Maybe interspersed with some stills from you, also from some that we will provide. We will provide our logos also.

Creative input is encouraged, we would be guided by you.

We would then require the film to be edited to 1.5 - 2 minutes long.

The idea is to showcase the gallery to attract visitors.

We have a limited budget.
